

About the Free Radicals

"Free Radicals" are on a serious mission to have a good time.

They have developed a catchy and danceable repertoire of well-known hit songs - but wait ! It's not that same tired old bunch you hear everytime you go to a venue these days ...

The Rads have worked up a great selection of rarely heard, quirky and entertaining hits and their show is a refreshing change at music venues and corporate events, combining professionalism and experience, with real enthusiasm and very strong music talents. The vocals are something else! Their drummer is, well, zany... (like a muppet on steroids)! Big Sound. Guitar hero lead breaks. Something for everyone, yet nothing like anything.

The depth of musical experience and industry recognition these guys have achieved individually is outlined in the biographies link ...

...and together they make a formidable unit - it all adds up to a top night of fun and music - like their name, free (as opposed to cheap) and radical (as opposed to status quo) ...guaranteed high quality entertainment.
